

Terry Shulman provides a unique glimpse into the minds and hearts of shoplifters and dishonest employees. Terry's personal work as a recovering theft addict combined with his training as a therapist and an attorney give him a rare perspective into the world of theft in the workplace. I have found his material extremely helpful in training both managers and investigators as it allows me to communicate the widespread prevalence of employee theft while putting a human perspective on the experiences of those who commit dishonest and fraudulent actions against retail companies.
